Extra:

You have decided to erect a bat house. Use the resources in your library, as well as information you've learned in this hunt, to create a proposal for your parents, your principal, your PTO or your local elected officials. Consider: equipment, concerns/fears, location, value to the community.

Which of the websites that you visited during this hunt would be helpful to you in writing the proposal? Why?

Go Digging: Bat pollinators are important to some plants. Explain.
