

Dude, You Gotta Move!

a Problem-Based Learning Project about Biomes

Worksheet 1 – What do you know about biomes?

Answer the questions to identify what you already know about biomes.

What is a biome?

Name the biomes:

List some characteristics or facts that biomes have in common.

Hint: (Consider how you would describe it to someone.) Example: Weather

Have you discovered some holes in what you know about biomes? That is to be expected. When you work on solving a problem, you often discover you need more facts to make a good decision.

Next complete Step 2 - [What do you need to find out about biomes?](#)
